NOTICES TO CORRESPONDENTS.

It is requested that all communications relating to subscriptions, advertisements, &c., be addressed to the "Manager, Hongkong Telegraph" and not to the Editor.

Letters on Editorial matters to be sent to "The Editor" and not to individual members of the staff.

Communications intended for publication must be accompanied by the name and address of the writer, not necessarily for publication; but as evidence of good faith.

Whilst the columns of the Hongkong Telegraph will always be open for the fair discussion of all questions affecting the public interest, it must be distinctly understood that the Editor does not in any way hold himself responsible for opinions thus expressed.

TO ADVERTISERS.

Advertisers are requested to forward all notices intended for insertion in that day's issue not later than THREE O'CLOCK, so as not to retard the early publication of the paper.

TO SUBSCRIBERS.

Arrangements have been made to publish The Hongkong Telegraph daily at 4 P.M. subscribers in the central districts who do not receive their copies before FIVE O'CLOCK will oblige by at once communicating with the Manager.

The Hongkong Telegraph

HONGKONG, WEDNESDAY, APRIL 5, 1882.

Sanitation in Hongkong is a much vexed question, and has even been elevated by our contemporaries into one of political significance in order to fulfill their constant aim of abusing GOVERNOR HENNESSY. In fact the whole question has, through their persistent representations, become so involved that it may be worth while to endeavour to clear it from the mists of controversy and place it before the public in a fair and accurate light. The first occasion on which the matter was brought prominently to official notice seems to have been in January, 1874, when the Colonial Surgeon made certain disclosures respecting the sanitary condition of the colony sufficiently alarming to startle even Sir A. KENNEDY for the moment out of his usual lethargy, and which induced him to minute the report as a "horrible revelation." Mr. GARDINER AUSTIN followed suit, describing the report as "reflecting seriously upon the Government in respect to the past, and throwing much responsibility upon it as regards the future." This report was supplemented by another, dated 5th April, 1875, being in fact Dr. AYRES's Annual report for the year 1874, and it is specially noteworthy that considerable portions of this document, reflecting on the sanitary condition of the Colony, were suppressed by order of the Acting Colonial Secretary, Mr. C. C. SMITH, and that this course was apparently acquiesced in by the then Attorney General, Mr. BRAMSTON, who now holds high office in Downing Street. In that report Dr. AYRES went very fully into the sanitary condition of the Colony, and reiterated his "horrible revelation." But, notwithstanding the momentary commotion which these disclosures created, little was done during the Kennedy régime towards really remedying the evils complained of. We have Lord KIMBERLEY's admission of this in his despatch of 26th Nov., 1880, and we are indeed astonished at the cool effrontery of Mr. PRICE in dwelling no less than three times in his letter to the Secretary of State of 15th August last on the excellence of the sanitary arrangements which existed during the administration of Sir A. KENNEDY when, as he states, the colony "was said to be the cleanest in the East." We leave Mr. PRICE to reconcile these reckless statements with those contained in the published official reports of that period, as well as Dr. AYRES's report of 5th April, 1875, of the existence of which, as well as of the sanitary facts it

disclosed, it must be remembered, that Governor HENNESSY was in entire ignorance until the end of June 1880, though Mr. PRICE well knew its contents from the time it was written. Governor HENNESSY however, within a month of his arrival, took up the sanitary question in earnest, and we find, not only that he animadverted on the very objectionable arrangement then in force of depositing ordure at Lap-sap-wan without deodorizing it with dry earth, but that he held the Colonial Surgeon responsible for any unnecessary delay there might be in remedying this danger to the health of the colony by the simple means which His Excellency pointed out. The sanitary arrangements of the houses at the Peak at the same time engaged the Governor's attention, and the result of a special report showed that the sewage of many of these houses was actually discharged into the ravine in which the Pok-fu-lum reservoir is situated; and this was ordered to be immediately stopped. Dr. AYRES was evidently opposed to the dry earth system from the first, and it is but fair to him to say he has been consistent throughout. On the 29th May, 1877, we find Dr. AYRES, in reply to the Governor's minute, stating "Nothing can be done here on the dry earth system," and it was only after the strongest remonstrances that the system was brought into operation which has been found to work advantageously wherever tried. The Governor referred the matter home to the Secretary of State, and it would seem that Sir M. H. BACCH was disposed to agree with the Governor's view, at all events more completely than does Lord KIMBERLEY. Sir JOHN POPE HENNESSY, as these reports show, continued to devote considerable attention to the question, and was able to inform the Secretary of State in July 1878 that he had stopped the depositing of sewage at Belcher's Bay, and that a kiln had been constructed to supply the necessary quantity of dry earth for the Gaol and Government establishments; and on the 8th October, 1878, the Governor had the satisfaction of receiving the report of Dr. O'BRIEN and Dr. WELLS Inspector General of Naval Hospitals, that "The sanitary arrangements of the Gaol are good; the dry earth system recently introduced works well."

In weighing this matter thoroughly, it is incumbent to bear in mind what the Governor has specially urged from the outset, viz: that the questions of water supply and sewage are entirely separate, and must be considered separately.

It has always been understood, in the numerous discussions which have taken place, that the issue between Governor HENNESSY and Messrs. AYRES and PRICE, was that, while the one advocated a proper hand bucket system supplemented by dry earth as a deodorizing agent, the others were in favour of water closets flushed by water leading to the sea through trapped subterranean drains. It now seems that Dr. AYRES and Mr. PRICE have changed their positions, for in Mr. PRICE's letter of last August, in which he so completely identifies Dr. AYRES with the views he expresses, he states that he only advocates it for Hospitals, and quotes the opinion of a high sanitary authority "in England, who is said to have stated that only a madman would seek to introduce the dry earth system into the walls of a hospital in preference to water closets, provided there were an ample supply of water available." There are plenty of sound authorities throughout India, China, Japan, the Straits, and Tropics generally, who would dispute this dictum, and who would probably hold a similar opinion of any one trying to introduce the water closet system. Mr. PRICE goes further, and commits himself to a statement inferring that dry earth has not disinfectant properties. In sufficient quantity it has always been considered a disinfectant; if it is not, then our whole burial system has to be altered. Moreover, as regards the point Mr. PRICE here attempts to make, we have only to say that it would be a curiously conducted Hospital which could not command a sufficiency of dry earth for the purpose, to say nothing of other disinfectants if considered necessary or which would allow the "accumulation" which he describes "to remain for hours in contact with the surrounding air, disseminating the seeds of possible infection." As the result of a careful study of this question, we are firmly of opinion that, considering the climate, people and position of this city, a proper hand bucket system, supplemented by a deodorizing agent, is the best system to adopt generally throughout the colony; much of the garbage also, we think can be carried away and utilized leaving only the sullage for the house drains, which doubtless require improving considerably. The difficulty of effectually grappling with the sewage question—and utilizing sewage—is increasing every day in Europe and America, but it has been solved from remote times by all the principal nations of Asia; and look where you will on the adjacent continent

the hand bucket system supplies a simple, economical, beneficial, and efficacious manner of dealing with that portion of sewage which is most troublesome in western countries; though the dry earth is a very desirable adjunct to it. Again, it is established as a scientific fact beyond dispute that a large proportion of diseases afflicting society in western countries are of germ origin, and to prevent the spread of these diseases the obvious mode is to remove the germs in time or to destroy them altogether. Who will deny that sewage contains those germs of disease, or claim that mixing with water destroys them? It follows then, that the longer they are held until deposited in river or sea the greater risk is run. Another indisputable fact is, that water, holding in mechanical solution or suspension any substances, will precipitate them when coming into contact with any body of greater density than itself. Consequently the fresh water from the sewers when discharged against the salt water immediately precipitates the material which it holds in mechanical solution, and only what it holds in chemical solution is carried off if the tides are sufficiently strong.

The difficulty and expense of carrying off sewage to a sufficient distance in a tidal harbour, so as to be harmless, can be illustrated by the fact that at New York according to calculation upwards of 50 gallons of water per head daily is necessary for this purpose. In a harbour like that of Hongkong any process to overcome the difficulty would necessarily be costly of construction and expensive to maintain. We leave out of consideration the difficulty in the way of enforcing the necessary alterations, and compelling owners of property to find the funds requisite for carrying out the costly system favoured by Messrs. PRICE and AYRES, as we take objection to the proposal on the strongest sanitary grounds and can claim high authorities to support us. One word with regard to the less unpleasant refuse. Many large cities in England, such as Leeds, Warrington, Blackburn, Nottingham and Derby, as well as American cities are utilizing their refuse by what is called a "Garbage destructor and Carbonizer" and this not only does not cause any nuisance in the vicinity of the depots, but actually pays for itself; and the refuse of these towns, which might under other circumstances, be deposited in places where it would become a hotbed of disease, is effectually destroyed or utilized, and the vegetable and other refuse converted into charcoal by the Carbonizer realizes as much as 30 shillings a ton. In other words, who can doubt that what is now being applied in England and America in the utilization of one description of sewage would certainly be applied to the utilization of the other, especially as it is far more valuable, if it were not for the fact that the towns in question have already an expensive system of subterranean sewage drainage. Such then are some of the reasons why we unhesitatingly agree with Governor HENNESSY in his sanitary policy for the utilization of sewage.

Those of our readers who know nothing of the scientific side of the question of sewage, can obtain practical illustration of what the introduction of a network of underground drains actually means for this colony, by walking along the Praya any morning when the tide is receding. The whole of the Praya, but more particularly at Peddar's Wharf, in front of the Artillery Barracks, and at the Blue Buildings, reeks with the stench of the sewage from the city, which has been run through the drains into the harbour, and thrown back by the ever varying currents on to the beach, where it lies for days disseminating the germs of disease through the polluted air. This is no exaggerated statement, and any person can satisfy himself on the subject without any trouble. It is a most extraordinary circumstance that the professional experts, the advocates of the drain system, have never alluded to the peculiar currents of Hongkong harbour, which present insuperable difficulties to the success of their pet scheme. It is to be hoped that Mr. Chadwick will not shut his eyes to the actual truth, or be misled by the gratuitous opinions and advice of interested partisans.

We have lately received several copies of *O Argus* a Portuguese journal published in Yokohama. With the exception of the recently resuscitated *O Matanze* the *Argus* is the only newspaper in the Portuguese language published in the Far East. It is a very small sheet, and being printed by Japanese in a native printing office is not altogether faultlessly got up. However it is a meritorious little journal in many respects, and as the proprietor intends to enlarge it on the 1st of June, we doubt not that a prosperous career will reward his enterprise. In the meantime it is gratifying to learn that the *Argus* receives extensive support from Portuguese in all parts of the world. We have observed flattering references to the little paper in several home journals such as the *A Liberdade* of Lisbon, *A Falsa Nova* of Oporto and the *O Povo do Aveiro* of Aveiro, and if our testimony is of any value, we are glad to be able to heartily commend Mr. P. E. da Silva, the Editor, for the good work he has already done. Considering the large number of Portuguese residents in the Far East, and the well known literary instincts of the race, it is a matter for surprise that Portuguese journals are so few and far between.

LATEST advices from the North state that Li Hung Chang has in contemplation to send back to the United States fifty of the students who returned to China last year, in order that they may complete their education.

THE *Daily Press* of this date—our so-called morning paper—gives a list of passengers who departed yesterday per mail steamer *Deccan*. The *Deccan* left Hongkong this morning about seven o'clock, and a notice to that effect appeared in last night's *China Mail*. The *Daily Press* is indeed a reliable authority for a confiding public to trust in.

ON Sunday, March 26th, says the *Amoy Gazette* Mr. Russell, Acting Commissioner of Customs, Messrs. Merrill, Muller, Abbott and Kerr were entertained at a picnic by the Chinese employees of the Customs, at the Hong Lim Garden. The picnic was given in honor of the intended departure from this port, of Messrs. Russell and Merrill, on leave of absence granted them by the Inspector General.

THE Bombay Government have published a resolution stating that as there is no chance of the Rajah of Kolhapore being restored to sanity, the Chief of Kagal has been appointed regent with a Council of three consisting of the Dewan, chief justice, and chief revenue officer to assist him. The regency will remain in force for such time as the Rajah De Jure shall be incapable of acting. The administration will be carried on in his name and in accordance with the state traditions.

We learn that His Excellency the Governor of Macao has received a telegram from the Commander of the Portuguese transport *Africa*, which lately left the neighbouring colony with the head-quarters of the Macao battalion bound for Lisbon, to the effect that a mutiny had occurred on board the vessel shortly after her departure from Singapore. Although the details of the mutiny have not been received, we understand the telegram states that some 30 persons, including two ladies, lost their lives before order was restored.

It is rumored that Lord Kimberley's decision in the Johnson-Hayllar-Eitel case reached here by last mail, and that the Secretary of State completely supports Governor HENNESSY in his decision that the investigation sought by Mr. Johnson was unnecessary. It is to be hoped that Mr. F. Bulkeley Johnson will profit by this lesson and exercise more discretion in his future public career than he exhibited throughout this lamentable affair. Our columns are at Mr. Johnson's service if he is desirous of publishing the letter he is credited with having received from the Earl of Kimberley.

THE following vessels have been chartered in Amoy during the fortnight ended March 30th:—*Alida Maria*, 6,200 piculs, Newchwang to Amoy, 18 lay days, 33 cents; if to Hongkong 40 cents per picul. *E. von Beaulieu*, 7,800 piculs, Taiwanfoo, Chefoo and back to Amoy, 30 lay days, \$2,350. *Loise*, 7,500 piculs, Newchwang to Amoy, 18 lay days, \$2,050; after completion of her Foochow Tientsin charter. *Kjohennann*, 8,000 piculs, Foochow to Tientsin, 20 lay days, \$2,650. *Bela*, 9,600 piculs, Takao to Yokohama, 28 lay days, 30 cents per picul. *John Potts*, 10,500 piculs, Takao to Sydney, Private terms. *Lee Yih*, 5,000 piculs, Taiwanfoo to Tientsin, 15 lay days, \$1,500.—*Amoy Gazette*.

THE *Daily Press* of this morning, in its usual three quarters of a column of childish twaddle which serves the purpose of a leader, says: "There can now be little room for doubt as to the truth of the report that Sir John Pope Hennessy has been virtually recalled." It is only a few weeks since our contemporary committed itself to the statement that Governor HENNESSY had been formally recalled in disgrace. The oracle of the morning journal is apparently the only person in Hongkong ignorant of what has been universally recognised as an undoubted fact; namely, that the report circulated announcing the Governor's recall was a contemptible *canard* worthy of the person to whose fertile imagination it owed its birth.

A ROBBERY of a most daring nature says the *Amoy Gazette* was perpetrated three nights ago on the island of Koo-lung-soo. It appears that a wedding is shortly to take place at the residence of one Nug Koo Joo and as is customary among rich celebrities on such occasions, valuable presents consisting of jewellery, wearing apparel &c. were about to be forwarded to the bride on the following day. It seems the robbers got scent of the intended presents and eight men well armed with painted faces effected an entrance into the said house and carried off five boxes with their contents besides a couple hundred of dollars. On the matter being represented to the Deputy by the owner of the lost property he was coolly told that he is stationed on the island to look after foreign interests only and that the case should be laid before the authorities in Amoy.

RUMOURS of trouble says the *Japan Mail* between the crew of some foreign ship and the Koreans continue to be rife. The *Hochi Shinbun* to-day places the scene of the affair at an island called Saishiu, which forms part of the province of Zenra. The inhabitants of this island are said to be semi-barbarous, ignorant of the existence of any country other than Korea itself. The impression conveyed to them by the aspect of a huge foreign merchantman and her strange looking inmates, was that the former must be something devilish, and the latter, monsters. No sooner accordingly had the crew commenced to land than they were attacked by the natives who killed two or three of the intruders. The story goes on to say that the latter subsequently made their way to the capital, Seoul, and demanded redress, but the sequel is still to be told. Meanwhile it is said that the Government of Korea is busied with schemes of reform which extend to almost every department of the administration, but details are too meagre to furnish material for discussion. Amongst other things a bank, or something resembling a bank, at Fusan with branches at Jinzen and Yokohama, is reported to be on the tapis.

THE Danish steamer *Fyen* was undocked at Kowloon this afternoon.

THE First Cohort for the summer season will be held in the Temperance Hall this evening.

THE Band of the Buffs will (weather permitting) play in the Public Gardens this evening, commencing at 9 o'clock.

RETURN of visitors to the City Hall Museum for the week ending April 2nd, 1882:—Europeans, 262; Chinese, 2,910; total 3,172.

LIEUTENANT Allen of the Buffs has been appointed to temporarily perform the duties of Aide-de-Camp to His Excellency Major General Sargent, C.B., pending the sanction of the home authorities.

CAPTAIN VON BLANC of the German Corvette *Storch* paid a visit to the French flag-ship *La Victorie* this morning, and received the customary salute on leaving.

QUARTERMASTER EDWARDS, who arrived by the steamship *Cyclops* on the 3rd instant, has come out for duty in the Ordnance store Department, to which he belongs, and is the first Quartermaster of that Department under the revised constitution of February 1880, who has been sent to Hongkong.

POLICE sergeant Hanson being still unable to leave hospital, where he has been now since the 12th of last month from the effects of the desperate attack made upon by a Chinaman near the Peak, the case of assault with intent to commit a felony, against the prisoner, was further remanded till the 13th instant at 2.30 a.m.

SCHOOL Master Tripp of the Buffs was united in the bands of holy matrimony, at the Cathedral yesterday morning, to a Miss Cochrane, a sister, we hear, of our worthy Inspector of Police of that name. Mr. Quinn, the Bandmaster of the Buffs, acted as "best man." The happy couple gave a party at Murray Barracks in the evening to their friends.

UPON the shooting case coming on again this morning at the Police Court, Mr. Wodehouse observed to Mr. Caldwell, who was present on behalf of the prisoners, that he demanded the case yesterday, as he thought it would be only fair that the defendants should have the benefit of their solicitor's advice as to making their defence there, or at the Supreme Court. Mr. Caldwell said he must advise them to reserve their defence, and asked if it was intended to take the evidence of Police Constable Dick, who had taken part in the arrest of the prisoners. Mr. Wodehouse said it was not, and committed both prisoners for trial.

THE European element of the Police Force was further reduced yesterday by the departure for home of Constable Stewart, who has been invalided after a very short service in the Colony. We hear there are now some twelve vacancies in the European branch of the force, and that although reinforcements from home were applied for last November, nothing has been yet heard about any men coming out. The keeping up of the European portion of the Force to its full strength being a matter of considerable importance to the efficient policing of the Colony, we hope to see the vacancies that exist shortly filled up.

It must have been particularly gratifying to Mr. J. H. Ackroyd, the new Registrar of the Supreme Court, to receive such a testimony of respect and esteem as that which was bestowed upon him on his departure from Mauritius. From all we can gather, this tribute was in every way deserved, for we notice that, not to speak of his having been an active Magistrate, there was hardly an intellectual or benevolent institution in that Colony which did not number Mr. Ackroyd amongst its most energetic members. It is some satisfaction to us to feel that we have in the new Registrar of the Supreme Court a gentleman of action and of wide experience and depth of views.

REAR ADMIRAL MEYER, the new French Commander-in-Chief of the China and Japan squadron, landed officially at Murray Wharf this afternoon, under a salute from the shore battery. A Guard of Honour of the Buffs, with the Band and regimental colours, under the command of Captain Davis, was drawn up above the wharf, on the Cricket Ground, to receive the Admiral, and as he advanced up the wharf, the Guard presented arms, the Band playing the General salute. The Admiral, who is a bluff hearty looking old gentleman, wearing several decorations, was accompanied by two other French Naval Officers. Chairs from Government House were in waiting at the Wharf to convey the party, who immediately proceeded thither.

THE Hongkong journals that denounced Governor HENNESSY's action in the celebrated cases arising out of the alleged overcrowding of the Canton river steamers are likely to have an opportunity of showing their consistency by treating Mr. W. H. Marsh to a similar load of undeserved abuse. It has been current talk in the colony for some considerable time past that the river steamers were making a regular practice of carrying more passengers than the local ordinance allowed. Whether the rumour was true or false concerns us little. It would appear however, after having been the theme of conversation everywhere in the colony for months, to have at last reached the ears of the police, with the result that on the evening of Monday last Messrs. Kwok Achong and Son's steamer *Kiung-chow* when preparing to leave for Canton was boarded by a posse of officers, who proceeded to count the passengers on board the vessel. The *Kiung-chow* is permitted by the ordinance to carry 158 passengers; on the evening named she had 15 in excess of that number. Captain Goggin was accordingly summoned, and appeared before Mr. H. E. Wodehouse at the Police Court this morning. On the application of Mr. Wotton, who appeared for the defendant, the case was adjourned for one week. We shall reserve our remarks on the subject until the Magistrate has finished his share of the programme.

POLICE COURT.—THIS DAY.

STEALING A DIAMOND RING.

Ng A Ip, a servant on board the *Iron Duke*, was charged this morning before Mr. Wodehouse with stealing a diamond ring, value \$40, the property of Tam Asing, a washerman, on the 1st instant.

The complainant said he went on board the *Iron Duke* on the 1st, having on his finger a diamond ring. The defendant asked him to show him the ring and after looking at it for a time he returned it to the complainant, who said he then put it in his purse, and that having occasion soon afterwards to open the purse, he found it was gone. He instantly returned to the ship and looked for it but could not find it anywhere, and so left. While looking for it, the defendant asked him what he had lost, and he said, "The diamond ring." On Monday the 3rd, he went again to the *Iron Duke*, and the defendant then told him that he had found the ring, but had accidentally dropped it into the water. The complainant did not believe him, but put his mind to himself. He saw him again yesterday, and said, "I think you have found that ring." He admitted that he had, and gave complainant the pawn ticket produced. The complainant did not intend taking any further steps but the defendant's master got wind of the affair and ordered him to be charged. The diamond ring was worth \$40. He bought it in America.

The accountant of the pawn-shop deposited that the defendant pawned the ring on Sunday last for \$16, stating it was his own property, and that he had bought it for more than \$40. He said he was a servant-boy on board a man-of-war, and would redeem the ring as soon as he got his pay. Inspector Perry said his duties lay specially in connection with pawn-shops. He had heard the pawn-broker's evidence and seen the ring. He considered that the pawn-broker, on hearing the defendant's statement, ought to have suspected something, and that he ought not to have received a ring of that description from a domestic servant without communicating with the police. He had never known a servant boy to have a ring of that kind.

Defendant said he found the ring on Monday morning when he was sweeping the deck, but the pawn-broker, on being recalled, stated the ring was pawned on Sunday. The case was remanded till Saturday.

ATTEMPT TO SNUOGLIE PASSENGERS ON BOARD THE "DECCAN."

Fong Achat, a shop coolie, and Chung Au, a cook, were charged this morning before Mr. Wodehouse, with attempting to smuggle 47 men on board the P. & O. steamer *Deccan* yesterday. Henry Allen Ritchie, an assistant in the P. & O. Company, said that he charged the two defendants with attempting to smuggle a number of passengers on board the *Deccan* yesterday. The shipping of Chinese emigrants on board the P. & O. steamers was done through the agency of a broker licensed by the Government. The name of their broker was Hop Kce. From what this man told him, he was instructed to charge the defendants.

Chan King Po said he was a licensed passenger broker employed by the P. & O. Company to procure passengers for their ships. The name of his firm was Hop Kce. On Monday the 3rd instant, the first defendant went to his shop in No. 86, Wing Lok-street, and asked him for some passage tickets for the *Deccan*, which was proceeding to Europe yesterday. Witness told him that the number of passengers was complete, and that he had no tickets to pass. The *Deccan* was licensed to carry 215 passengers. The defendant then went away, and nothing more happened until yesterday, when, from what he was told, he came this morning to give evidence. The first defendant was in charge of a boarding house for emigrants. He did not know the other defendant.

Chan A-Tong said he was employed in the Hop-Kee shop of the last witness. Yesterday the 4th, early in the morning, he was sent on board the *Deccan* to look after the embarkment of passengers, each of their passengers was supplied with a ticket, a specimen of which he produced, and no other Chinese deck passengers were allowed passages unless supplied with one of these tickets. He remained on board the *Deccan* during the day, and saw the whole of their passengers, 215 in number, embark. They were all on board by 5 p.m. yesterday. He still remained on the ship, in order to see that no other deck passengers went on board. At about 9 p.m. he was standing on the ship's side, when he saw three sampans and one cargo boat, all full of passengers, come alongside, and the passengers got on to the ship. They climbed up over the side of the vessel forward. As they went on board, he asked them for their tickets, and saw one of them hand their (the witness's firm's) tickets. They had baggage with them. There were over forty who came in that way. When he asked them for their tickets, they referred him to the first defendant, who had come with them. He asked the first defendant what it meant, who said, "They are not all my passengers, they belong to two boarding houses. He asked the first defendant what he meant by bringing them without tickets, and he replied, "I went to the Hop Kce shop and got tickets, and was told there were no more." The first defendant then pointed to the second defendant, who was standing by, and said "This man said he would be able to get them on board." He does not know the second defendant at all. The first defendant also gave him the letter produced (written in Chinese) and said, "I am going to give this letter to the second defendant's friend in Singapore who will pay their passage for them." The letter was an order to the Tang Cheng Lan firm, Singapore, for eighty-four dollars to be sent to him. He refused to let the passengers remain and the first defendant then ordered them all away, and they all went by the boats by which they came, taking their baggage with them. He detained the first and second defendants, and took them to the P. & O. office and the two were given in charge. It was a very common thing for passengers to be smuggled on board in this way.

Henry Allen Ritchie, recalled, said that the passenger tickets put in by first witness were tickets issued by them (the P. & O. Company), and that they only give them to the broker. They give him a book of them containing 500, and when they are all used up, they give him another. After the departure of each vessel, the broker brings them the book for inspection, so that they can see at once if the proper number of passengers has been exceeded. If, for instance, after a steamer goes he has used up 216 tickets, when the next steamer goes he will start from No. 217, and when the book is brought after the departure of the next steamer, they will see whether more than 215 tickets had been used. The penalty for carrying passengers in excess is very heavy.

The defendants asked no questions of any of the witnesses. The Magistrate remanded the case till Saturday the 8th instant at 10 o'clock. Defendants were allowed out on bail in sureties of \$100 each, and they asked that a named Lo Ayau, living in the shun Kee shop Kwong Yune West-street might be subpoenaed.

"TIMES-STREET INDUSTRIES" by Percy Russell. This illustrated Pamphlet on Perfumery, &c., published at 6d., may be had gratis from any Chemist or dealer in perfumery in the World, or JOHN GOSNELL & Co., London.—[ADVT.]

THE HONGKONG TELEGRAPH.

Commercial.

THIS DAY, FOUR P.M.

The depression in share business still continues, and the effect of this is plainly noticeable in the marked depreciation of the market values of the various stocks. There have been a few feeble attempts to reopen negotiations, but absolutely nothing in the shape of actual buying and selling has come under our notice. Banks are again weaker, and although no shares have been offered at a lower rate than 113 per cent. premium, a legitimate offer of 112 would not be allowed to pass unnoticed; however there are at present no cash buyers in the market. Marine and Fire Insurances are generally weaker, excepting the stock of the China Fire Insurance Company which is fairly firm at annexed rate, a demand existing for a few small lots. Docks are gradually declining, and no opposition has yet been offered to stay their downward course. Finding no buyers at 53 per cent. premium, holders would willingly come to terms at a point less; however, nothing has been done, and we think that even a still lower rate would fail to attract buyers. Of course there is no tangible reason for this depreciation beyond the temporary depression of all share business. Steamboats to a limited extent could be obtained at 233 per share premium, and Hotels are offered without finding purchasers at 107. A further depreciation in Sugars has also to be noted, offers to sell at 162 meeting with no response. A fair business in bonds of the Chinese Imperial Loan of 1881 was put through last night at 3 per cent. premium, without in any way altering the quotation.

SHARES.

Hongkong and Shanghai Bank—112 per cent. premium, sellers.
Union Insurance Society of Canton—\$1,600 per share.
China Traders' Insurance Company—\$1,600 per share.
North China Insurance—Tls. 1,175 per share.

HAIR DRESSING SALOON
HONGKONG HOTEL.

W. P. MOORE begs to inform the Gentlemen of Hongkong and Visitors that he has reduced the price of Hair-Cutting to 50 cents. Having now in his employ three competent Assistants who are always in attendance, he guarantees to execute this class of work, in all its branches, with a perfection which cannot be excelled in any part of the World.

Hair-Cutting.....50 Cents.
Shampooing.....25 Cents.
Bleaching.....25 Cents.
Trimming Beards.....25 Cents.

MONTHLY CUSTOMERS TAKEN AT REDUCED RATES.
RAZORS MOST CAREFULLY RE-SHARPENED.
Mr. Moore begs to recommend his COCO SHAMPOO WASH to the public as unrivalled by any preparation ever produced for promoting the growth of the hair. The basis of this compound is made of soap root; the natives of the Philippine Islands never use anything else for washing their hair; they are never found bald, and it is quite common to see the females with hair from 5 to 6 feet long. By constantly using this shampoo, Wash is directed, you will find it NEVER LIES BALD!

The proprietor offers the Wash to the public entirely confident that by its restorative properties it will without fail arrest decaying hair, it completely eradicates scurf, dandruff, and cures all diseases of the scalp. It does not stain any poisonous drugs. By its cooling properties it allays the itching and fever of the scalp, which is the great cause of people losing their hair.

Mr. Moore has succeeded in being able to lengthen time by his Wash, without allowing it to irritate the scalp, and to keep any hair in its natural state.
